I've had my hands dirty in everything from mowers to cars to big trucks most of my life. My first project was an old Snapper mower my grandpa had been fiddling with before he passed away a few years before I was born. I would pretend it was a stock car, run it down a hill and push it back up. I come from a long line of car guys, including my father and his brothers. I have over 25 years of experience in automotive, truck and HD

equipment, 6 of which were in the U.S Army as a mechanic. My wife and I have 5 children, 5 grandchildren and two dogs and 4 cats. We enjoy camping, dirt track races, time on the water in our boat. We call home a lake-side community about 60 minutes east of St Louis, Missouri. I welcome you to look me up on social media and connect with me

anytime!
